

NEWS RELEASE

THE SELANGOR AVIATION SHOW 2022 (SAS 2022) TAKES-OFF

Selangor Aviation Show, 8-10 September 2022 at Skypark RAC, Subang Airport

SUBANG, 8 September 2022 – Selangor Aviation Show 2022 (SAS2022) was officiated by His Highness Tengku Amir Shah Ibni Sultan Sharafuddin Idris Shah Alhaj, the Crown Prince of Selangor. Held on 8th to 10th September 2022, SAS2022 is designed as another forward-thinking initiative by the state for all relevant stakeholders to network, dialogue, and share knowledge and offerings poised to revitalise the industry.

Hosted by the Selangor State Government and organised by Invest Selangor, the event will be a networking event for the aerospace industry players, especially the Business and General Aviation players, to re-energise their business in the region.

Themed “The One & Only Business Aviation Show in the Region”, SAS2022 focuses on the Business and General Aviation industry, especially in Selangor, as worldwide data has shown this sector of the aerospace industry to be more resilient to the pandemic impact and its recovery is quicker and more sustainable than most other aerospace industry sectors.

The SAS2022, which will have strong local representation, has also attracted participation from international players from Singapore, Brazil, France, Switzerland, Czech Republic, Nigeria, United Kingdom and United States.

Major OEMs like Embraer SA, Dassault Aviation and Delta Aerospace are participating, and local industry leaders like Systematic Aviation Services, Dviation Group, AERODYNE and Pen Aviation.

Several highlights throughout the SAS2022 include product, services and technology exhibitions, static aircraft displays, drone displays, networking sessions, numerous talks on the industry's hot topics and even an Edu-Open Day on 10 September for the NextGen visitors.

Apart from the program lined-up, SAS 2022 also witness several MOU signing ceremonies. Some key highlights are between Menteri Besar Selangor (Incorporated) ("MBI Selangor") with ten (10) key players within the Aerospace Industry, namely GE Engine Services Malaysia Sdn. Bd. ("GE Malaysia"), Spirit AeroSystems Malaysia Sdn. Bhd. ("Spirit") and other main Tier 1 and local large companies. The scope of the MOCs is focused on building a sustainable human capital ecosystem in Aerospace Industry.

On why the state is pushing hard to promote Business and General Aviation at Subang Airport, YAB Dato' Seri Amirudin bin Shari said, "Selangor remains the location of choice and since the year 2020 to date, there has been a significant increase in Aerospace and Aviation companies present in Selangor."

Interested trade visitors may still register to attend the SAS2022, with some limitations to time slot availability. The public and students are encouraged to visit on the show's third day.

More information on SAS2022 is available on Facebook, Instagram and LinkedIn @selangoraviationshow. You may also connect on Twitter at @SelAviationShow.
