

FOR IMMEDIATE RELEASE

INVEST SELANGOR ANNOUNCES TOP 21 COMPANIES FOR THE SELANGOR LIFE SCIENCES ACCELERATOR PROGRAMME 2025

SELANGOR, 16 October 2025 – Invest Selangor, the organiser of the Selangor Life Sciences Accelerator Programme 2025, in partnership with NEXEA, announced the top 21 companies selected for the programme during Orientation Day at VIDA Bukit Ceylon, Kuala Lumpur. The event brought together entrepreneurs, mentors, and Invest Selangor and NEXEA representatives.

Selected from a competitive application process, the cohort will receive support designed to turn scientific innovations into scalable businesses. The Selangor Life Sciences Accelerator Programme 2025 combines direct funding, in-kind benefits from strategic partners, tailored mentorship, and curated introductions to corporate and investor networks.

Acting as a strategic bridge between science and commerce, the programme aligns research capability with market demand and investor readiness. Participating teams are rapidly moving into pilot programmes, licensing discussions and growth funding rounds — demonstrating the programme's role in building commercially viable life-science companies in Selangor and beyond.

Programme Highlights

Companies selected for the Selangor Life Sciences Accelerator Programme 2025 will receive:

- Mentorship by experienced entrepreneurs and life sciences experts.
- Access to funding opportunities and strategic partners.
- Access to the NEXEA entrepreneur network.
- Curated corporate introductions and market access.
- Potential funding of up to RM1,000,000
- Total RM60,000 Cash Prizes from Invest Selangor

By combining Invest Selangor's state-level investment networks with NEXEA's venture and founder community, and by working closely with corporate and government partners, the Selangor Life Sciences Accelerator Programme 2025 provides funding pathways, regulatory guidance and commercial connections to help companies expand in Malaysia and internationally.

Top Companies Selected for the Selangor Life Sciences Accelerator Programme 2025

1. Bioloop Sdn Bhd.
2. PlusVibes
3. Pixelence Sdn Bhd
4. YSBiotik Sdn. Bhd.
5. Health Digital Technologies Sdn Bhd
6. Nanofertech Sdn. Bhd.
7. Engage Life
8. GreenSHeart Sdn Bhd
9. Materials In Works
10. PALM FIBER SDN BHD
11. Ocean Rich Resources
12. Microbiome Sdn. Bhd.
13. Fasclone A.B.I Sdn.Bhd.
14. Iotech solutions
15. Aeolia Studio Sdn. Bhd.
16. AAF BioScience
17. Promed Health Ventures Sdn Bhd

Appendix

Descriptions of the Top 21 Companies:

1. **Bioloop Sdn Bhd** - Bioloop turns wastes into animal feed and natural fertiliser using black soldier flies, generating money while protecting the environment.
2. **PlusVibes** - PlusVibes is a community-focused digital mental health platform that combines certified therapists, AI features, and self-care tools to deliver on-demand, affordable support with a focus on early intervention. We are innovating mental healthcare to be preventive, accessible, and localised.
3. **Pixelence Sdn Bhd** - Pixelence - a startup developing an artificial contrast dye for brain medical imaging, which eliminates the need for chemical dye from the process, reducing costs and 2X ROI for MRI Machines.
4. **YSBiotik Sdn. Bhd** - Improved compliance with easy-to-consume locally manufactured Halal pharmaceuticals
5. **Health Digital Technologies Sdn Bhd** - DoctorOnCall isn't just telemedicine—it's the future of personalized healthcare. We're building thematic clinics online: Men's Health, Women's Health, and Weight Loss—designed to engage patients with branded treatments and then transition them into personalized, compounded care. With the GLP-1 revolution, obesity and metabolic disease treatment is becoming mainstream, and DoctorOnCall is leading the charge in Malaysia by combining clinical expertise, digital convenience, and long-term subscription models.
6. **Nanofertech Sdn. Bhd** - Nanofertech empowers fertilizer efficiency using its proprietary surfactant additive, addressing a global market
7. **Engage Life** - We fix corporate wellness by making it fun, measurable, and fully HRDC-funded. Most programs fail — ours gamifies health through hybrid programs and an app, driving real behaviour change. We've worked with 40+ companies, engaging 5,000+ users with 91% engagement and 54% fewer MCs.
8. **GreenSHeart Sdn Bhd** - This startup is building the AI layer that makes Medtronic and St. Jude's \$1.7B implant market smarter, our smartphone platform enhances existing devices with personalized predictions that cut readmissions 25% and mortality 50%.
9. **Materials In Works** – Materials in Works transforms hard-to-recycle label packaging waste into sustainable molded pulp packaging, helping brands cut costs, reduce carbon emissions, and close the loop in the circular economy.
10. **PALM FIBER SDN BHD** - Commercialization of the fibre from Palm Oil Palm Tree Trunk Fiber (OPTF) as food ingredients (New Raw Material).

- 11. Ocean Rich Resources** - Ocean Rich Resources developed a method to grow oysters three times faster than traditional methods, and they are building the first vertically integrated oyster farming business to capitalize on this untapped potential.
- 12. Microbiome Sdn. Bhd.** - Our product "Gow!" is a targeted probiotic designed to address the root causes of gout by supporting metabolic balance across the gut, liver, and kidneys.
- 13. Fasclone A.B.I Sdn.Bhd.** - It use Thin cell layer (TCL) liquid culture technology in advanced liquid bioreactor to mass-produce millions of healthy, disease-free F1 banana seedlings efficiently for farmers
- 14. Iotech solutions** - MediGuard is an autonomous medical AI rover that combines advanced language models with robotic systems to deliver real-time, specialist-level healthcare diagnostics and emergency response in underserved areas where access to medical professionals is limited.
- 15. Aeolia Studio Sdn. Bhd** - Farm AI helps farmers spend less, grow more, and save time — with clear advice given by AI and a one-click marketplace for everything they need.
- 16. AAF BioScience** - Transforming waste into high-value bioproducts (biofertilisers, biopolymers, carbon credits).
- 17. Promed Health Ventures Sdn Bhd** - ProWanita uses AI-based technology to make breast and cervical cancer screening easy, affordable, and available to every woman in Malaysia, so more lives can be saved through early detection.
- 18. AgroPV Integrated SB** - AgroPV Integrated Sdn. Bhd., established in February 2020 and registered under the Companies Commission of Malaysia (SSM), is a startup company incubated under Putra Science Park, Universiti Putra Malaysia (UPM). There is an urgent need for integrated agrivoltaic solutions that not only optimize land use and enhance food production, but also promote circular resource use and create green jobs within solar farm ecosystems—particularly in rural communities where employment opportunities are scarce.
- 19. KT Academy Sdn Bhd** - At Healing Village, we've developed Breath Kit — a first-of-its-kind 4-in-1 wellness device that combines a roller applicator, dual-end massager, acupuncture point tool, and an inhaler chamber infused with exclusive agarwood-based aromatherapy. Unlike conventional products that only address one aspect of wellness, Breath Kit delivers a complete ritual — inhale, apply, and massage — in one compact device. Backed by our Nafas Tenang breathwork science and collaborations with NYCX on sustainable agarwood formulas, BreathKit supports respiratory health, stress relief, and even smoking cessation. We're building not just a product, but an ecosystem with recurring aromatherapy refills and community

- 20. Healthapps Sdn Bhd** - HealthApps is a Grab-style platform connecting patients with doctors for digital health consultations and medicine delivery. Convenient. Accessible. Seamless. Truly healthcare at your fingertips. Visit the HealthApps at www.askmydoctor.asia and experience how we connecting health and enriching lives.
- 21. Ummah Worldwide Resources** - At Ummah Worldwide Resources, we build community-based recycling models that convert waste into high-value products while creating new income opportunities for mosques, cooperatives, and the B40 community. We have piloted projects with SWCorp and local cooperatives, and now we are ready to scale. Through the Selangor Life Sciences Accelerator, we seek strategic support to expand across Selangor and develop into an export-ready green enterprise.
